Deals & Rebates Best Sellers Parts Accessories Tools & Equipment Car ...

One of the most important aspects of building a great racing car is weight. The best way to save weight is to replace an existing battery with a super lightweight Braille unit and then mount it in the best place on the chassis to improve weight distribution. Braille batteries are always on my list of priorities when building a new car. Peter Brock

Varley Red Top Batteries and Varley Lithium Batteries from the Motorsport Battery Range from DMS technologies has been the PREMIER choice for the professional and club racing driver for some 60 years. The batteries have evolved to meet the changing demands of both motor racing and rally disciplines.
