Flushing out old contaminates and replacing dirty fluid should be done on a regular basis. Check your owners manual for servicing guidelines. Unfortunately, a power steering flush will not fix a leak. If the leak is small, you can use a power steering stop-leak which is simply mixed in with your power steering fluid. It will plug the leak.

Hello Team, Today i went to Car mechanic to check my car front left wheel tie rod check and he suggested me to replace it which cost me around \$100 (\$25 Replacement part), during the repair he mentioned they noticed power steering fluid leak and mentioned Rack and Pinion replacement which would be around \$500 + Labor.
