So my 2001 T6 is showing "Engine System Service Required" and the orange exclamation point. I decided to scan it with my generic scanner and the only code was P1238 but no "Check Engine Light" was illuminated. I inspected the lines to the Turbo Control Valve and they look old but not damaged, I'm leaning toward the valve itself being bad.

Check charging system: Have your Volvo battery system inspected by your local mechanic. Can I drive with a "Power System Service Urgent"? We do not recommend you drive with a "power system service warning" message. The power system is centered around the battery and charging system in Volvo.

Hi Guys New here -bought my car 2 weeks ago all was running great 115k full service 2400 D5 diesel engine and I stated getting this warning coming up Engine-System-Service-Required. On Sunday the car died at lights and initial would not start.

The EL. POWERSYSTEM SYSTEM REQUIRED message appears keep driving another 10 minutes then the ANTI-SKID SERVICE REQUIRED message appears. It begins to shake and misfire I exit and turn the car off then it car wouldn't turn on at all. After waiting awhile (15 minutes maybe?) the car starts up again.
