

2006 honda ridgeline power steering system

This is a 2006 RTS w/85K miles - Truux lift. I just started noticing that the power steering pump is whining. I hoped to find the fluid low - but it isn't. It has a low whine just sitting there idling and it reacts to engine revs and turning the steering wheel. It isn't a squeaking belt.

Also related to towing and heavy payloads, the Ridgeline features a power steering cooler to help dissipate power steering fluid heat build up that can occur when hauling heavy loads or towing (see the chassis section for more information). Variable Torque Mangement 4-Wheel Drive System (VTM-4(TM))
