Panasonic CR123A Photo Battery 3V / 1550mAh / 10 Year Shelf Life. This Panasonic CR123A is a 3 volt lithium battery that comes with a 1550mAh capacity and 1A discharge rate. This steady and continuous discharge rate paired with a substantial capacity ensures that your devices stay charged for a very long time.

The CR2 battery is slightly shorter than the CR123A battery and will not fit in most applications that require a CR123A battery. These batteries do share a few similarities in that they are both made using lithium manganese dioxide and they are both 3 volt batteries. Where to buy CR123A Batteries? CR123A batteries are extremely common and popular.

The Duracell Procell PL123A Lithium Battery provides reliable, long-lasting power for critical devices like cameras and security systems. Engineered for high-performance applications.
