

6v lithium battery type cr p2

What is cr-p2 photo lithium battery pack?

CR-P2 Photo Lithium Battery Pack is a high voltage battery designed specifically for today's 35mm digital and APS cameras. They offer superior performance and long life, so your camera will always be at full power. But best of all, they offer faster recovery time between flashes, allowing you to take more photos in a shorter period of time.

What is a high power lithium CR2 battery?

Priority, Next-Day & Saturday Delivery Available This High Power Lithium CR2 battery is part of the High Power Lithium line from Duracell, made to provide lightweight, reliable power for constant operation of high demand devices. You can trust these cells to deliver maximum output far longer than comparable alkaline batteries.

What are CR2 batteries?

The CR2 battery is a cylindrical lithium cell classified by its 27mm x 15.6mm dimensions. They're typically used in older film cameras, shutter remotes, compact flashlights, and other small devices. Most CR2 cells are primary single-use and are not rechargeable.

What is a red lithium CP2 battery?

Our M18(TM) REDLITHIUM(TM) CP2.0 Battery delivers up to 2X more runtime, 20% more power and 2X more recharges than standard lithium-ion batteries. The lithium-ion battery pack features superior pack construction, electronics, and performance giving you more work per charge and more work over pack life than any battery on the market.

What is a cylindrical lithium CR2 battery?

A CYLINDRICAL LITHIUM CR2 battery is a cylindrical type of battery with lithium technology, ensuring long-lasting power in all circumstances. A cold and damp cave or a freezing winter night: absolutely no problem for this battery.
