S model del Sol with power steering? Wanted: "95-"97 Honda del Sol (Si or VTEC) Honda Del sol. Brake lights, door lights and trunk light come on.

This article applies to the Honda Civic/Del Sol (1992-2000), and Accord (1990-2002). So your Honda Civic or Accord is hesitating at low idle? Is your idle hunting or uneven? Maybe you don't have much power until 3,000 RPM? Although there are some complex causes for idle problems, there are also a few fairly simple reasons that might be the cause.

This article applies to the Honda Civic Del Sol (1993-1997). Fuses are placed in-between the battery, and every electrical component on your car draws power from it. It's important to know where the fuses are located and what each fuse does. So if you ever have a problem, you know where to start looking.

Performance Parts for Honda Del Sol Summary: The extra power added by engine performance parts should also be complemented with chassis/suspension parts. The additions do not have to be done at once, Chassis/suspension parts for your Honda Del Sol can be added on a later date, but a balance should be met to support the extra power.

My 94 honda del sol SI with a v-tec loss of power on grade, does not want to shift right, while driving it will rev - Answered by a verified Mechanic for Honda ... i have a 94 honda del sol with the 1.5 in it. im having trouble diagnosing the problem, when your driving it in the rpm range up to 4000 it boggs down, ...

Suspension parts from 92-95 civics, 94 up tegs and del sols are the same. Im running EK BuddyClub 15-way coilovers with Es bushings and Type r bars. Nice and tight handling, a lil stiff and bumpy tho.

A good start is Rock Auto. They have a good selection of suspension parts for the Del sols. I did a full rebuild of my suspension because I am daily driving it and it needed some TLC. My Del Sol came with a sway bar and coilovers. I kept with rubber bushings because there"s honestly no reason to go for poly imo. I used Mevotech for the brand.

94 del sol power losing

A Del Sol with a 300-400 whp all motor Kswap would be plenty of a show. I also want the car to be a summer car she will be driving to work. I'm trying to wieght out the best options to make the car stand out in a show yet be streetable enough for stop and go traffic.

I have a 94 Delsol, and it has a Power Steering Rack and it is leaking a lot of oil. I Looped the lines a few years ago and didn't like it very much, mainly because every bump I hit it would jerk the wheel around. ... People try so hard to be unique, they lose their sense of style ... a del sol vtec or 96/97 del sol si rack has the same ratios ...
