Who is the best solar company in South Carolina?

According to solar shoppers on the EnergySage Marketplace, the top five solar installers in South Carolina are Olympus Home, Renu Energy Solutions, Solar Energy Partners, CAPE FEAR SOLAR SYSTEMS, LLC, and ESD Solar. How many solar companies are in South Carolina?

Where can I buy solar panels in South Carolina?

Solar Energy World was founded in 2009 and operates across 10 states, including South Carolina. This installer offers solar panels from several manufacturers, as well as solar batteries and live system monitoring. With Solar Energy World, you can buy your solar panel system outright or sign a lease or PPA.

Are solar companies competitive in South Carolina?

Solar companies are competitive in South Carolina -- they want your business. We recommend shopping around and getting multiple solar quotes. That way you can choose the one that offers the best value deal for your energy needs.

How much does solar cost in South Carolina?

The average price per watt of solar power in South Carolina is \$2.44/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$21,873 for a 12.82 kW system. Many states even offer local rebates and incentives that lower the price further--sometimes by thousands of dollars.

Does South Carolina have solar energy?

Since only about three percent of homes are powered by solar in the state, this puts the priority for the changeover relatively low compared to how many clear days residents enjoy each year. That being said, South Carolina's solar energy still falls in the top half of the country's states when it comes to price.

Is solar a good investment in South Carolina?

Going solar is a huge investment, especially in South Carolina where the cost of solar is a little higher. Choosing a company that has a lot of solar financing options, like Blue Raven Solar, can help ease the initial financial burden of installing solar panels.

The average cost of solar panels in South Carolina is \$3.27 per watt, which is lower than the U.S. average of \$3.33 per watt. An 11 kW (kilowatt) solar panel system is the most common system size to offset the average monthly utility bill of a Palmetto State resident.

Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average South Carolina homeowner needs a 12.78 kW solar panel system to cover their electricity needs, which comes out to \$31,915 before incentives.
