The EU PVSEC is the largest international Conference for Photovoltaic Research and Technologies, Industries and Applications, and at the same time a leading international PV Industry Exhibition. It gathers the global PV community to conduct business, to network and to present and discuss the latest developments and innovations in Photovoltaics.

Nigeria Energy 2023 featured 3 days of engaging discussions and networking connecting over 6,500 + local and international energy stakeholders from across the power value chain. Enabling charting pathways to energy efficiency and sufficiency in West Africa, the conference discussed real-life solutions and actionable recommendations.

AfricaPVSEC is a new initiative partnering EU PVSEC and SNEC for promotion and exchange in the photovoltaic solar energy sector and bring together leading experts, researchers, public authorities, representatives of international organizations, donors, NGOs. ... The diffusion of Modern Energy Technologies Africa has been found to be very low especially for solar energy systems. The installed solar PV capacity in Africa is a major issue of concern globally. This low trend in technology adoption is of interest because Africa enjoys some of the best solar radiation levels in the world averaging between 4 ...

Date: 25 - 26 April 2023. Venue: Sandton Convention Centre, Johannesburg. The Solar Show Africa, co-located with The Future Energy Show Africa, is a multi-branded vibrant exhibition intentionally designed to represent the convergence between conventional generation, lower-carbon innovations and renewable energy solutions in South Africa and the wider ...

Solar energy in Africa. The Solar Power Africa conference and exhibition will happen at the Cape Town International Convention Center from 16 th-to 18 th February 2022. South Africa has launched the first-ever Solar Power Africa Trade Show as the country leads the continent"s drive to the renewable energy transition.

The second annual Solar Power Africa (SPA) 2023 conference & exhibition, is a highly interactive and engaging two and half days for stakeholders across the solar PV, the broader renewables and energy landscape. Under the theme "Innovating under the African sun," SPA 2023 is designed to explore strategies for energy security by unlocking the solar PV ...
