Anyone use Alien Power system ESC's ?..... they look like fighter cat's. There seems to be anything you need from 100amps to 420amps but these things are really big. Prices are very reasonable like \$240.00 for a 300amp marine version. Any input would help since no more Castle units are available.

I will be using the Alien Power Systems APS-6384-100KV Out-Runner. They have this motor in both
sensored and sensorless. The ESC will be the Open Source Vedder VESC for it versatility. Standard E-Bike
Controllers can also be used if the sensored motor option is used. The APS 6384 100KV has massive torque of
6.9NM at the rated power of 4000W.
