Select your State below to view solar feed-in tariffs for Alinta's plans. Solar feed-in tariffs are important, but to find the best deal you must consider usage rates and supply charges.

Does Alinta Energy offer solar?

A competitive solar feed-in tariff. The great news is that all Alinta Energy plans offer solar to eligible customers. And, whilst we don't install solar panels, we instead focus on offering our customers the best combination of a competitive electricity offer and a competitive solar feed-in tariff.

Which provider has the best solar feed-in tariff in Victoria?

Origin Energy currently offers the best solar feed-in tariffs (FiTs) in Victoria at the time of publication, with eligible customers receiving 20 cents per kilowatt hour (c/kWh) of energy exported to the grid. Following this is AGL with 15c/kWh and Energy Australia with 12c/kWh.

What is the minimum solar feed-in rate in Victoria?

Customers in Victoria can find some level of comfort in the fact that there is currently a mandated minimum solar feed-in tariff rate of 4.9c/kWh for customers on single rate tariffs. However, this is a large decrease from previous years where solar customers received 10.2c-12c/kWh.

Do solar retailers offer a minimum feed-in tariff rate in NSW?

You can try our Solar-friendly Retail Plan Comparison Tool to get a more complete picture. At the moment, there is no mandatory minimum feed-in tariff rate in NSW. Instead, individual electricity retailers assign a value to exported solar power as they see fit. Some retailers offer more than others, and some retailers offer nothing.

Are feed-in tariffs still available in Australia?

State-mandated feed-in tariff incentives are no longer available to new solar customers in almost all of Australia's states and territories. Instead, rates are largely voluntary for electricity retailers in most states; they usually fall in the range of 6-15¢/kWh - generally lower than price of retail electricity purchased from the grid.

To understand which tariff you're on, check your Alinta Energy bill - your tariff will be listed in the "Understand your bill" section. Here are four of the most common tariffs. Single-rate tariff ... Victoria (Citipower): Off-peak: 12am-3pm & 9pm-12am; Peak: 3pm-9pm
