What are the best solar referral programs?

The following three companies run established successful solar referral programs that have increased their market share and total sales: Sungevity offers a one-sided referral reward program that also includes tiers. Depending on how many new customers they refer (a maximum of three), a customer can receive either \$500, \$1,000, and \$2,000.

What is a solar energy business referral program?

Referral programs offer incentives to customers for recommending your products and services to their friends and family. For example, a Solar Energy Business referral program could offer a discount or free installation for customers who refer new customers to the business.

How do I start a solar referral program?

When considering a solar referral program, there are a few elements that should be in place. First, your solar energy company needs to have an existing customer base. A referral program can't be successful if it doesn't have customers to get it up and running.

How to get rewarded with solar referral program (refer2earn)?

You can get rewarded in our solar referral program (Refer2Earn) by getting friends to sign-up. The reward can be up to RM1,000 in cash or services.

How do solar panel referral programs work?

Solar panel referral programs use word-of-mouth marketing as a way to boost your business. In fact, many of the top solar companies already run successful referral programs. We go over the top three examples below, as well as all the points to consider when starting your own solar referral program. First, what is a solar panel referral program?

How many referral credits does a solar referrer get?

For solar panels or Solar Roof orders using a referral link, the referrer will receive 9,000 referral credits. Buyers will receive a \$500 discount. The referral program also extends to Canada, with similar offers starting on the same dates. The referrer will receive 20,000 referral credits for other referrals.
