

Arlo solar panel instructions

How do I set up my Arlo Solar Panel?

To set up your Arlo Solar Panel: Choose a good outdoor location for your Arlo Solar Panel, ideally within 4.5 feet (1.3 m) of your Arlo camera. The solar panel can absorb the most solar energy when it is in full sunlight for as much of the day as possible. You can mount the solar panel on various surfaces such as your wall, fence, roof, gutter, or eaves.

How do I connect my Arlo Ultra camera to a solar panel?

The Arlo solar panel lets you harvest power from the sun to keep your Arlo Ultra camera battery charged. The solar panel with cable comes with a mount and mounting screws. Install the solar panel mount near your camera. Attach your solar panel to the mount. Connect your camera to the solar panel power cable.

How does Arlo solar panel work?

You can use the Arlo Solar Panel to connect your camera to continuous power. The solar panel uses direct sunlight to keep your battery charged. The solar panel is weather-resistant and comes with an 8-foot magnetic power cable and adjustable mount.

How do I charge my Arlo solar panel?

SOLAR POWER OPTIONS: Use the long-lasting, rechargeable battery with included Micro USB charger or purchase an Arlo Solar panel or outdoor charging cable for continuous power;

Can the Arlo solar panel be used outside?

The Arlo Solar Panel can be used in any outdoor location that falls within the solar panel's operating temperature range of 32°F to 113°F (0°C to 45°C). For safety reasons, the solar panel cannot charge your camera battery at temperatures below freezing.

Can the Arlo solar panel charge a camera battery?

For safety reasons, the Arlo solar panel cannot charge a camera battery at temperatures below freezing. To set up your Arlo Solar Panel: 1. Choose a good outdoor location for your Arlo Solar Panel, within 4.5 feet (1.3 m) of your Arlo camera.

o Choose a location for your solar panel with a temperature range of 32°F; 113°F (0°C; to 45°C). o Wipe your solar panel every few months to remove dust or debris that might affect solar energy harvesting efficiency. o We recommend that the batteries be fully charged when you connect your Arlo device to your Arlo Solar Panel. The solar ...
