

# Backpacking solar panel review

Like most outdoor solar backpacks, the SlarGoPack 10k Solar Backpack features a 7-watt solar panel that charges a 10,000 mAH waterproof li-polymer battery. The solar panel is also removable, so you can point it anywhere you want, or just take it off for nighttime strolls.

Our measured weight for this product is 17 ounces, or one pound one ounce. In comparison to panels with similar results in our charging speed tests, this panel is actually fairly lightweight. It packs a heavy punch in performance, alongside a reasonable weight, making it a great option to bring on a luxury backpacking trip.

Weight is everything in backpacking, with lighter hiking being better hiking. The Nekteck 28W Portable Solar Panel Charger takes that into account, and packs considerable power into a package weighing less than 1.5 pounds.
