At the Ben-Gurion National Solar Energy Center, scientists are experts in concentrated photovoltaics (CPV) that focus light--up to 15,000 suns -- into small, highly efficient photovoltaic (PV) modules. At the Ilse Katz Institute for Nanoscale Science and Technology, researchers are exploring new PV materials.

The 23rd Sede Boqer Symposium on Solar Electricity Production was held between September 5 - 7, 2022 - at the Blaustein Institutes for Desert Research campus, after a hiatus of exactly ...

Organized by the Ben-Gurion National Solar Energy Center Organizing Committee: Eugene A. Katz Please note that the program includes only the names of the presenters of lectures and posters. Names of co-authors can be seen in the abstracts themselves. 2 ...

Founded in 1987 and located in the Ben-Gurion University, at Sede Boqer in the Negev desert, the National Solar Energy Center is a world renowned research center. It counts projects such as the world's largest solar reflector, built in a joint project with the company Zenith Solar in 2007, which uses a 10 square-meter reflector dish.

Step one: Email a request to pay by bank transfer or check in the form of an officially signed commitment letter from your institution or a formal purchase order. Payment is made to: Ben-Gurion University of the Negev. Please include all of the following information: Participant's name and email address; Institution's
