At the Ben-Gurion National Solar Energy Center, scientists are experts in concentrated photovoltaics (CPV) that focus light--up to 15,000 suns -- into small, highly efficient photovoltaic (PV) modules. At the Ilse Katz Institute for Nanoscale Science and Technology, researchers are exploring new PV materials.

Adi Vital Kaplun z"l was an exceptional student, and in her honor, we have chosen to name our Best Poster Awards after her. Adi earned her M.Sc. in Environmental Physics and Solar Energy from the Albert Katz International School at the Jacob Blaustein Institutes for Desert Research, Ben-Gurion University of the Negev's Sede Boqer campus, graduating with outstanding honors.
