To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, EcoFlow, Anker, Goal Zero, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. What to Know Before Purchasing a Portable Power Station

What can a portable power station Power?

A portable power station can power your phone, computer, or even your refrigerator. We researched the best portable power stations to help you decide which is right for you.

What kind of batteries do portable power stations use?

The two main classes of batteries you'll see right now in portable power stations are LiFePO4 and NCM. LiFePO4 batteries utilize lithium, iron, and phosphate, and are considered safer and longer lasting than other batteries. They are, comparatively, lower in price for the power they deliver.

Where can I buy a portable power station?

There are plenty of other portable power station options available on the market. Most are available at stores like Lowe's, Home Depot, and others, and I recommend checking out these models. ZDNET saves you time and money by delivering the best products and tech deals to your inbox every week.

What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.

Are battery powered power stations a good idea?

Put those smelly, noisy, and potentially hazardous gasoline generators away and step into the 21st century with a sleek, battery-powered power station. These modern marvels are not only quiet and odor-free but also spring to life with just the press of a button.
