What are the best rechargeable batteries in 2024?

Make those devices a bit greener by using a rechargeable version of whatever battery you need. Our favorite is Panasonic's Eneloop Pro, in both AA and AAA sizes, but there are several great options in this review. Here are the best rechargeable batteries available in 2024, based on extensive research and expert input.

What is the best rechargeable AAA battery?

Capacity is rated at 800mAh, which is fairly standard for AAA batteries. We found that this figure was correct and measured capacity at 844mAh, with little variation over 50 testing cycles. Overall, the combination of longevity, price and power make the Amazon Basics Rechargeable AAA 800mAh the best rechargeable AAA batteries that you can buy.

Can you use a rechargeable battery instead of a lithium ion battery?

If you own such a device (and if you're unsure, it's most likely listed on the bottom of the device or in the manual), you can use a rechargeable Li-ion battery instead of a disposable lithium or alkaline, since all three operate at a constant 1.5 volts.

How much does a lithium ion AA battery cost?

\$48 from Amazon The EBL Lithium-Ion AA Batteries are quite a bit different than others on this list. Aside from their lithium-ion composition (compared to the nickel-metal hydride seen on most products), these batteries can be charged with a USB cable instead of a charging dock, allowing you to power them with a laptop or other device.

Are rechargeable batteries compatible with other devices?

Compatibility with devices: Device compatibility depends on three main factors: voltage, form factor, and size. Devices that support rechargeable batteries tend to support a type of battery, like AA or AAA.

The Duracell and IKEA were the two best batteries across the three tests, so either one should do well for you. If you're cost-conscious, though, the Duracell batteries cost \$2.25 ...
