

Best portable power station

Are portable power stations worth it?

Portable power stations are more powerful and cost effective than ever before. And, thanks to advances in lithium-ion battery technology, they're also lighter and more compact. Whether you've been dreaming of van life or are building out your emergency kit in advance of that next blackout, there is a power station that will meet your needs.

What is the best portable power station for camping?

You still get perks like wireless charging and expandability from 1536Wh up to 7680Wh. Pecron E2000LFP (1,920Wh): I discussed this unit briefly earlier as the runner-up to the Delta Mini in the "best portable power station for camping" race. It has more options than the Mini and is suitably priced.

What is a portable power station?

Portable power stations are basically large batteries in protective boxes, with AC outlets and other charging ports built in. They're generally much bigger, heavier, more powerful, and more rugged than power banks and portable laptop chargers.

What is the best portable power station?

Plus, it has more AC, USB-A, and USB-C ports than most portable power stations we've tested. Offering plenty of power and ports in a compact package, the Jackery Explorer 1000 is the best portable power station for emergency backup power or outdoor activities such as camping and tailgating. It has great battery life.

What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.

How much power does a portable power station hold?

On the small end, portable power stations hold around 300 Wh (like the little Goal Zero Yeti 300, our Best Budget pick). These little ones are generally smaller than a lunch box and good for tasks like recharging laptops and speakers, LED lighting, and small fans.
