

Bikemaster lithium ion battery charger manual

The Bikemaster Lithium Battery Charger is a versatile charger that can be used with a variety of batteries, including lead-acid, gel, and AGM batteries. It has a maximum charging current of 1 amp, which is ideal for charging small batteries.

Universal Lithium-Ion Battery Charger by BikeMaster®. The perfect companion to keep your Lithium-Ion motorcycle batteries fully charged and ready to ride. Specifically designed for charging and maintaining 12 volt LiFePO4 batteries, this fully automatic unit has

Specifically designed to keep lithium batteries charged at their full potential, the BikeMaster Lithium Ion Battery Charger features easy to read LED indicators to keep you informed of charging cycle status. A little extra juice goes a long way. Features: 12V/2A output. Circuit protection against overcharging, short circuiting or reversing polarity

The perfect companion to keep your Lithium-Ion battery fully charged. Manufactured with over 11 feet of reach, the charger/maintainer is fully automatic with built-in circuit protection to keep from overcharging, short circuiting or reversing polarity.

This charger has been designed to keep your Lithium-Ion batteries fully charged. Features: Fully automatic with built-in circuit protection to keep from overcharging, short circuiting or reversing polarity

Features: Built-in circuit protection guards against overcharging, short circuit and reverse polarity Shock resistant ABS material Convenient, color-coded ring terminals and alligator clips for easy, correct installation Fully automatic: Powers on when needed, and leave it for long time maintenance Reverse polarity indicator Power on LED indicator Charge indicator: Red LED ...

Product Details. BikeMaster Lithium Ion Battery Charger. The unit is designed for charging/maintaining Lithium-ion batteries. Input: Ac 120V, 60Hz Output: DC 12V,2A. Built-in circuit protection guards against overcharging, short ...

Manufactured with over 11 ft. of reach, the BikeMaster Lithium-Ion Battery Charger/Maintainer is fully automatic with built-in circuit protection to keep from overcharging, short circuiting or reversing polarity. It features easy-to-read LED lights that indicate when power is on, charge in process, reverse polarity and fully charged. Specifications
