

Black ring solar panel

How does the ring solar panel work?

The latest Solar Panel with upgraded solar technology keeps your camera charged longer with up to 60% faster charging than the previous generation. Connect it to any Ring USB-C Security Camera with the built-in USB-C connector or barrel plug camera with the included USB-C to barrel plug adapter. Keep your setup tidy with built-in cable management.

Why do I need a ring solar panel?

We understand how critical it is for your Ring Solar Panel to function as intended in order to supply power to your Ring security camera. The Ring Solar Panel was certainly intended to extend the battery life on your Ring security camera so you can rely on your security device for longer periods of time without recharging the battery.

Does the ring solar panel charge my security camera?

It sounds like you have some concerns regarding the Ring Solar Panel charging your Ring security camera. Ring solar devices require 3 to 4 hours of direct sunlight a day. Filtered or indirect sunlight through the clouds will not provide a charge to your device.

Does ring solar panel offer free shipping?

Available at a lower price from other sellers that may not offer free Prime shipping. The latest Ring Solar Panel with upgraded solar technology keeps your camera charged longer with up to 60% faster charging than the previous generation.

Do ring cameras need a solar panel?

Customers say the solar panel for Ring cameras is a valuable addition, providing consistent power and reducing the need for frequent battery changes. Many users appreciate its easy installation and effective performance, especially in sunny conditions.

Are all Ring Protect plans sold separately?

All Ring Protect plans are sold separately. Learn more on [Ring.com](https://www.ring.com). This bundle contains Spotlight Cam Plus, Battery and a Solar Panel.
