

Blue planet solar panels

What is Blue Planet Energy's new energy storage system?

Blue Planet Energy has launched a new energy storage system, the Blue Ion HI. The stackable, maintenance-free lithium system is backed by a 15-year performance warranty to ensure reliable power delivery, day or night, on or off grid.

Does Blue Planet Energy Blue ion HI work with solar panels?

The Blue Planet Energy Blue Ion HI pairs well with solar panel systems, especially if your utility has reduced or removed net metering, introduced time-of-use rates, or instituted demand charges for residential electricity consumers.

Who is Blue Planet Energy?

Blue Planet Energy is a US-based battery manufacturer on a mission to eliminate the use of carbon-based fuels while powering the world with reliable, affordable, clean energy.

What is Blue Planet Energy Blue ion HI battery?

The Blue Planet Energy Blue Ion HI battery boasts an excellent depth of discharge of 100 percent. The Blue Ion HI battery is backed by an impressive 15-year, or 8,000-cycle, product and performance warranties that cover the equipment in the case of faulty parts or defects, as well as the actual performance of the battery.

How much does a Blue Planet Energy Blue ion HI cost?

Learn more about our mission and how we make money as a company. The Blue Planet Energy Blue Ion HI costs between \$12,000 and \$19,000 before installation. Blue Planet's 16 kilowatt-hour home battery is capable of electrifying a home on its own.

How long does a Blue Planet battery last?

Blue Planet Energy's warranty coverage says that by the end of 15 years or cycling your battery 8,000 times, your battery will still be able to store at least 70 percent of its initial out-of-box capacity.
