

# Can't see friends snap score

Can you see a friend's Snapchat score?

The snap score is only shown if both parties added each other as a friend. As long as one person didn't add the other as a friend on Snapchat, both parties won't be able to see each other's score. You can only see someone's Snapchat score if you're friends with them. In addition, they must not have removed or blocked you.

What if you can't see someone's Snapchat score?

But, if you cannot see someone's Snapchat score, there is a reason behind it. To access each other's Snapchat score, you and your friend must add each other. So if you cannot see the score, it means they have never followed you, and if you are sure they did, then it must mean they have deleted you.

Can I see someone else's snap score?

The only way you're granted the ability to see someone else's snap score is to add them as a friend and have them accept you as a friend in return. If both users haven't hit the 'Add' button, neither will see the other's Snap Score. The same goes for if someone blocked or removed you.

Why can't I see someone's snap score?

A page will open with their display name, username, and Snap score. If you can't see someone's Snap score, perhaps they have removed you from their friends' list or blocked you. Simply sending and receiving Snaps, doesn't improve your Snap score -- although it helps.

How do I check a snapchat user's snap score?

You can check a Snapchat user's Snap score if they're a friend - just by tapping on the friend's username. Then, press their Bitmoji icon. A page will open with their display name, username, and Snap score. If you can't see someone's Snap score, perhaps they have removed you from their friends' list or blocked you.

How do I Check my Friend's snapscore on Snapchat?

Step 1: Open Snapchat and tap on the Chat icon. Step 2: Here, tap on your friend's profile icon. Check their Snapscore. If you're a Snapchat+ subscriber, you can also see how much your friend's Snapscore has changed since the last time you viewed it.
