

Cat energy power systems perth

Why should you choose cat's electric power?

Temporary power solutions perfect for planned maintenance, events, storm and disaster preparation. Helping you avoid costly downtime and unplanned outages. Stay up-to-date with Cat's Electric Power energy solutions or get genuine parts for your generator set. Get the most from your equipment with outstanding service and support from Caterpillar.

Where can I see the cat xes60 battery energy storage system?

Make sure to visit Energy Power Systems Australia (EPSA) at stand S146 to see the Cat XES60 Battery Energy Storage System on display as part of the newly launched range of Caterpillar BESS units. Our team is ready to share how our innovative hybrid energy solutions can provide the sustainable power you need.

Who is CAT Rental Power?

Cat Rental Power has been recognised as a global leader and innovator with the most recent innovation being Remote Monitoring. Remote Monitoring provides live equipment telemetry and remote control functionality, now allowing you to accurately view performance data of Cat equipment in real time.

Can a cat's hybrid energy solution be remotely commissioned?

Cat's Hybrid Energy Solutions can be remotely commissioned, making it useful for mining and exploration sites. The unit includes a unique power factor correction, internal surge protector, 10 year warranty and an AC solar feed. It also has an internal and remote BMS system.

What can I do with my Caterpillar power solution information?

Upload and store all your power solution information in one place. Collate and review Caterpillar product documentation: technical product datasheets, component datasheets and 2D / 3D drawings. Share and validate your preferred energy scenario with a local dealer.

Why should you choose Caterpillar power systems?

Caterpillar is renowned for reliability, safety and dependability with Cat power systems boasting a proven lowest total cost of ownership and highest return on investment.
