

Con Edison energy storage program manager

What is Con Edison's plan for energy storage?

Con Edison's plans for balancing the rising electric load within the city with the increasingly intermittent renewable supplies it will be managing under the CLCPA's clean energy plans includes energy storage.

Why does Con Edison offer energy management programs?

Con Edison offers these programs out of an understanding that high energy costs can be a hardship, particularly for low- and moderate-income customers. The best way for customers to take control of their bills is to manage their usage of gas and electricity.

Is Con Edison a utility?

Con Edison is and always has been a utility. What's changed is the definition of utility within the New York energy market. Today, a utility has a different relationship with consumers and is primarily charged with delivery service of electricity or natural gas to homes and businesses.

Are Con Edison's New energy savings programs real?

WAKEFIELD, The Bronx (PIX11) -- It's a new program whose promise of brand new, super-efficient appliances, lower monthly bills, and a smaller carbon footprint has left some utility customers skeptical. However, the promises are real-- and free of charge -- as part of a new program Con Edison is doing to move customers away from [...]

Does Con Edison have a battery storage system?

Con Edison's first utility-owned battery storage project, built in Queens in 2018, was deployed throughout the summer to provide grid relief during high demand periods. Many more batteries are on the way in the company's service area, including customer-owned systems in homes and businesses.

What is Con Edison's REV program?

Con Edison's REV (Reforming the Energy Vision) program is a sprawling distribution system integration plan under which they, along with the state's other investor-owned utilities, are tasked with creating a distributed system platform to harness the value of customer-owned and operated DERs (Distributed Energy Resources) and reward them for their contributions. Under the REV program, Con Edison is working on creating this platform.

4 Milestones DERMS Program Overview and Major Milestones Program Overview Con Edison is deploying a Distributed Energy Resource Management System (DERMS) to address the challenges associated with integrating technology, processes, and grid planning operations with increased DER incentivized by New York State and Federal initiatives.

Con edison energy storage program manager

Participate in the SmartCharge Commercial and/or Demand Charge Rebate program Install eligible load management technology capable of balancing, curtailing, or deferring applicant's EV charging demand on the electric grid What's Eligible Load Management Software Energy Management Systems (Hardware or Software) ... 2024 Consolidated Edison ...

As part of our Clean Energy Commitment, we aim to promote and encourage the efficient operation of 1,000 MWs of energy storage by 2030. The Fox Hills energy storage system, which is located next to our substation in the Rosebank neighborhood of Staten Island, furthers our clean-energy goals by storing 7.5 MW / 30 MWh of energy, including from ...

Learn all the ways Con Edison helps ensure the safety of employees, customers, and the environment while distributing energy. ... We have well-defined environmental, health, and safety management systems. In fact, we've received formal certification for these systems under the ISO 14001 Standard from the International Organization for ...

As part of our commitment to renewable energy, Con Edison's Clean Energy Businesses continued growing by investing approximately \$400 million in renewable electric projects in 2022 and operating a total of 3,074 megawatts ...

Battery Storage. Westchester customers lead the region with 559 of the 619 battery storage projects with the capacity to store 14 MW. In total, Con Edison customers installed 46.8 MW of storage capacity. Con Edison has also installed 9.5 MW of utility-owned storage for a total storage capacity of 55.3 MW.

The energy, stored in 11 Tesla Megapacks, will be used to maintain stability of the local electricity network, as well as being dispatched by Con Edison into the wholesale market ...

2 Case 18-E-0130, In the Matter of Energy Storage Deployment Program, Order Establishing Term-Dynamic Load ... Con Edison Dynamic Load Management (DLM) Program ** Enrollments will be completed annually for New and Existing Aggregators Program Description Term-DLM Purpose

Additionally, participation in Con Edison's Demand Management Program (Con Ed DMP), which provides a per kW incentive for the installation of energy storage systems in their service territory, precludes energy storage systems from receiving compensation from any programs except utility and NYISO demand response programs.

Waste Management. Solid Waste . Consolidated Edison Company of New York, Inc. (CECONY) and Orange & Rockland Utilities, Inc. (O& R) continue to minimize waste by emphasizing an end-of-life mindset during job planning that considers minimizing future waste streams during each phase of work, including project and process design, purchasing, and waste disposal.

Vice President, Customer Energy Solutions. 1:10 - 2:40 PM: Con Edison Programs, Incentives, and Support: Demand Response : Gerrianna Cohen Program Manager, Demand Response: Non-Wires Solutions: Casey Siwinski Program Manager, Non-Wires Solutions: Bulk Energy Storage : Brian Schaitkin Senior Planning Analyst, Bulk Energy Storage : Distribution ...

Our PowerReady program has supported the installation of more than 2,600 charging stations, and we're aiming for around 19,000 by 2025. ... Con Edison is in the forefront of our industry as a provider of safe, reliable, and clean energy to 10 million customers. ... Clean Energy Update With our Clean Energy Update, anyone can track ...

Low-Income DER Make Ready Program - Karice Redhead, Clean Energy Mgr. Con Edison Energy Storage Programs Overview - Brian Schaitkin, Senior Planning . Analyst, Bulk Solicitation . Enabling FERC 2222 - Will Taylor, Project Manager and Wassim Salloum, Project Specialist. Best Practices - Interconnecting Energy Storage - Libin Mao, Sr ...

Energy Affordability Program; Error: Please call us at 1-800-752-6633 to complete this request. ... Condensing Storage Water Heater 75 MBTUh or Greater ... Energy Management Systems: # of Units: 100-249 - Affordable Rate \$11,250.00 / per building.

Con Edison is enabling distribution-connected energy storage on several fronts, including pairing the systems with other distributed energy resources (DER) and critical loads. The goal for each project is to increase the ...

Vice President, Distributed Resources Integration, Con Edison. 1:10 - 2:50 PM: Con Edison Programs, Incentives, and Support: Demand Response : Gerrianna Cohen Program Manager, Demand Response : Non-Wire Solutions : Casey Siwinski Program Manager, Energy Efficiency : Bulk Energy Procurement: Charles Umberger Section Manager, Bulk Energy Storage

BALTIMORE -- April 21, 2021 -- CPower Energy Management (" CPower "), a leading energy solutions provider, today announced that it has been selected as one of the awardees by Con Edison and Niagara Mohawk Power Corporation d/b/a National Grid (" National Grid ") for each utility's Term-Dynamic Load Management (DLM) Program ("Term ...

Approval of Con Edison's BQDM Program is a significant step for the utility to pursue non-traditional infrastructure investments to meet local demand. On December 12, 2014, the New York State Public Service Commission (PSC) issued an order in Case 14-E-0302 approving Consolidated Edison Company of New York Inc.'s (Con Edison) Brooklyn/Queens ...

Con Edison is enabling distribution-connected energy storage on several fronts, including pairing the systems with other distributed energy resources (DER) and critical loads. The goal for each project is to increase the reliability and the resilience of the local network while proving a positive business case.

Con edison energy storage program manager

The team at Con Edison has leveraged a number of programs and incentives over the last few decades to encourage customers to implement energy solutions that reduce the demand on the city's grid infrastructure. The Brooklyn-Queens Demand Management Program launched in 2014.

1 Case 18-E-0130, In the Matter of Energy Storage Deployment Program, Order Establishing Term-Dynamic Load ... Con Edison Dynamic Load Management (DLM) Program *Future RFP's to be released annually. ** Enrollments will be completed annually for New & Existing Aggregators.

The company provides a wide range of energy-related products and services to its customers through the following subsidiaries: Consolidated Edison Company of New York, Inc., a regulated utility ...

That's why Con Edison advocates for utility ownership of large-scale renewable generation. On behalf of its customers, Con Edison plays an integral role in keeping the region's environment clean for future generations, Cawley said. Spending on energy efficiency programs will triple to more than \$1.5 billion by 2025.

Connolly Energy Storage. The 2.8MW/5.6MWh Connolly battery energy storage system is connected to a circuit that supports 15 small solar farms and rooftop solar installations. When customers aren't using much electricity, excess power can overload the circuit. SCE will use the battery energy storage system to manage this reverse flow.

Media Relations manager, Con Edison. ... Battery energy storage systems will play an important role in a clean energy future. At the end of 2023, the utilities had connected 1,125 customer battery systems with a capacity of 82 megawatts. ... Safe, Reliable Energy Service. Con Edison's utilities have long-standing records of providing safe ...

Eligible battery energy storage systems must be between 50-5,000 kW in rated capacity and can be installed as grid connected or load following at the facilities of Con Edison customers in good standing. Incentive funds are subject to the remaining capacity available for new projects and will be capped by system configuration.

Con Edison is implementing Green Button Connect, a national standard for energy data-sharing that's enabling third parties to offer meter-equipped customers access to demand ...

Con Edison Clean Energy Businesses. As part of our firm commitment to renewable energy, Con Edison's Clean Energy Businesses continued growing by investing approximately \$600 million in renewable projects in 2020, expanding its footprint to 20 states and operating a total of 2,868 megawatts of aggregate solar and wind capacity by the end of 2020.

CECONY is supporting and incenting third-party owned and operated energy storage for local demand relief as an integral part of the portfolio of solutions in three program areas across ...
