How do I connect the pilot cabin power system?

Collect the cube and then head to the door on your right and place the cube to open it. This will give you the second Energy Cube that you need for the other relay. After that, place both Energy Cubes in each relay on the top floor. As soon as you place the second one, you will connect to the Pilot Cabin Power System.

How do you open a pilot cabin?

To the north is a gate that can be opened when you place a power stone on it. Once it opens the gate should reveal the other power stone. Get that stone inside the room and don't forget to remove the power stone that you just placed. Now use those two power stones to power the two relays and the pilot cabin will open!
