

Dakota lithium solar panel

What is a Dakota lithium solar panel kit?

Dakota Lithium's #1 best selling solar panel kit for larger RVs, Vans, Campers and Trailers. This 200 watt kit provides enough power to charge up to 200Ah of Dakota Lithium batteries. Lithium compatible solar charge controller, integration kit, and Bluetooth battery monitor included. Add additional panels for larger off-the-grid power systems.

What is a Dakota lithium battery monitor?

A DL staff favorite. Monitor the power level, voltage, and performance of your Dakota Lithium batteries via an easy to use app on your phone. Built into the battery monitor is a 300 watt (15 amp) solar charge controller, allowing you to also add solar panels to any 12V Dakota Lithium battery.

How do I Check my Dakota lithium battery performance?

Monitor the power level and performance of your Dakota Lithium batteries via an easy to use app on your phone and/or connect solar panels to your Dakota Lithium batteries. What is the best battery for Solar Panels? Backed up by Dakota Lithium's legendary 11 year warranty. A portable power station designed to meet all your power needs. Anytime.

What is the warranty on a Dakota lithium battery?

Dakota Lithium batteries come with a 11 year warranty. Additionally, Dakota Lithium 100 watt solar panels have a 25 year output warranty. Recharge your batteries on the go with folding solar panels. Create off-grid electrical systems powered by the sun. Fish longer, play harder, and go further with a battery that never needs to be plugged in.

What is Dakota lithium?

Here at Dakota Lithium we help power your passion from morning to night. Built for abuse during long North Dakota winters, Dakota Lithium is a battery designed to endure. To help you do what you love longer. A battery made to last. We've harnessed the power of lithium chemistry and combined it with North Dakota grit to build you a better battery.

How much power does a Dakota lithium battery have?

Jump start a car or boat engine with over 1,000 cold cranking amps (CCA) of engine starting power, run a trolling motor, or power your devices and smaller appliances with 135 amp hours (1,728 watts) of deep cycle Dakota Lithium energy. All in one waterproof lithium battery so light that it floats.

From the solar panels all the way to the battery connections. Make sure you cover the solar panels to ensure no electricity is being received into the system. Once all of the above is complete, connect the solar panels to the charge controller. Enjoy the awesome power of the Sun! Being able to have a solar power system is a game changer.
