When it comes to disposing of your old Dewalt batteries, it's important to do so responsibly. Throwing them in the trash can be harmful to the environment, as the batteries contain hazardous chemicals that can leak into the soil and water supply. Instead, consider recycling your old batteries.

DeWalt DC9071 rechargeable batteries are used to power many of their portable electric tools. Originally the 14.4 volt DeWalt battery contained 12 nickel cadmium (NiCd) cells each producing 1.2 volts, but battery technology has improved so now a new 14.4 volt DeWalt battery contains 4 lithium ion (Li-ion) cells each producing 3.6 volts.
