

What is a DIY solar panel installation?

DIY installations allow you to customise your solar panel system to match your home's energy needs and roof layout (or perhaps even a balcony). Some professional installations may offer limited options, while a DIY approach allows for optimising panel placement, choosing specific components, and tailoring the system for maximum efficiency.

Where can I buy DIY solar panels?

Several companies specialise in selling DIY solar panel kits to the public. Plug-in Solar is particularly easy to follow, and offers a wide range of kits and step-by-step DIY guides, plus accessories such as solar panel mounting kits. Renology, Select Solar and Sunstore Solar are also well worth a browse.

Can a DIY solar panel installation save you money?

Embarking on a DIY solar panel installation can be rewarding, offering significant cost savings and a better understanding of your home's energy systems. We'll help guide you to simplify the process, from initial planning and preparation to the final steps of connecting your system to the grid.

Should I buy a DIY solar panel kit?

To save cash, you may be tempted to buy a DIY solar panel kit and fit your panels by yourself. DIY solar panels are widely available and many are excellent value compared with the cost of professional installation. For example, a full 3.4kW 10-panel kit from Plug-in Solar costs £4,728.

Do solar panels need to be built in the UK?

Regardless if you hire an installer or you carry out a DIY home solar system installation, your solar panel installation needs to follow the standard UK building regulations for your area. These regulations typically are:

1. Ensure that your roof is strong enough to support your panels
2. Mitigating the risk of fire your solar panels pose.
- 3.

How do I choose a solar panel kit?

Check your daily energy requirements - If you're connected to the grid, check how much electricity you use per day so you can buy the correct size DIY solar panel kit. If you're off-grid, calculate how many appliances or tools you want to power and go from there.
