When is the energy storage Grand Challenge summit 2024?

August 7 - 9, 2024 Register today! Join the energy storage community for the Department of Energy's (DOE) 4th Annual Energy Storage Grand Challenge Summit as we explore pathways to grid-scale energy storage that can meet the needs of our nation now and in the future.

What is the Energy Storage Summit?

Hosted in Texas, a renewable and business hub, as well as the driving force behind many energy storage installations in the US this year, the Summit is the perfect place to meet with fellow industry players and address the most critical market issues.

Is energy storage a necessity?

Planned and currently operational U.S. utility-scale battery capacity totaled over 16 GW at the end of 2023, with another 15 GW in 2024 and around 9 GW now expected in 2025. Energy storage is no longer an aside or a luxury; it is a necessity if we want to reach our global net-zero goals and stay on track.
