

Doosan power systems head office

Who is Doosan Power Systems?

Doosan Power Systems builds, maintains and extends the life of power plants across the world. We unite the rich heritage of Doosan Lentjes and Doosan Babcock in advanced steam generation, waste-to-energy and nuclear with the global leadership of Doosan Infracore Power in the design and manufacture of turbines.

Will Doosan expand its global reach?

Following on the heels of the Upper Trishuli-1 Hydro Power Project in Nepal that the company won, Doosan plans to continue with its efforts to expand its global reach by participating in numerous overseas projects, including hydro power plant projects in Pakistan and Laos.

Why should you choose Doosan Power Systems?

Supported by our global service capabilities, this winning combination gives Doosan Power Systems the capability to provide efficient and cost-effective solutions that create real value for our customers and their assets around the world.

What does Doosan do?

Doosan aims to continuously implement projects successfully to produce and replace main equipment for nuclear power plants and expand its services business, at the same time stepping up efforts to develop technologies for nuclear power plants decommissioning, a market that is forecast to grow to the size of USD 374 billion by 2050.

Who is Doosan GridTech?

In 2016, we acquired IEnergy Systems, a US-based company with proprietary technology in the field of energy storage systems (ESS) control system software, to form Doosan GridTech, through which we are now playing a leading role in stabilizing power supply in the renewable energy market.

What types of equipment does Doosan offer?

Thank you for visiting the Doosan website. For a faster response, we provide each affiliate with questions. Power generation / Water / Casting-forging / Construction / New & renewable energy Compact equipment / Material handling equipment / Grounds maintenance equipment / Portable power / Attachments
