

Dsc power series security system battery replacement

Where can I find a replacement battery for a DSc alarm system?

UPS Battery Center carries a full line of Alarm Batteries, including the DSC Alarm Systems DSC BD7-12 12V 7.2Ah Replacement Battery which is the replacement battery for your DSC PowerSeries Home Security System. Locate the control panel box The battery control box is usually located inside a closet, garage or attic.

How do I know if my DSC alarm needs a replacement?

You will know when your battery needs a replacement when your alarm system beeps and displays a low battery trouble code. This is one of the most common problems in beeping DSC alarms. However, if you recently had an outage in your area, wait 24 hours first after the power returns to normal because the battery may just need to be recharged.

How often should I replace my DSC security alarm system battery?

In general, the original power capacity of alarm system batteries goes down to about 80% after 3 to 5 years. Because of this, you have to replace your batteries as needed. Doing this ensures that your batteries will provide backup power to your system for longer periods.

Why does my DSC power series Home Security keypad say "1"?

When the keypad display on your DSC PowerSeries Home Security Keypad reads "1" the emergency backup battery in the control panel is low and needs to be recharged or replaced. If the power in your home goes out, the security system will shut down if the battery is below the operating level.

What is the warranty on a DSc bd7-12 battery?

All Alarm Batteries from UPS Battery Center are new and always fresh stock. The DSC Alarm Systems DSC BD7-12 12V 7.2Ah Replacement Battery is covered by our industry leading 1 year replacement warranty. Extended warranty of up to 3 years is available for your convenience.

How often should a DSc powerseries neo battery be replaced?

The battery used for a DSC PowerSeries Neo depends on the desired standby time. Use the chart in this article to determine the required battery. Battery capacity deteriorates with age and the number of charge/discharge cycles. Replace every 3-5 years.
