

Duke energy solar program florida

Does Duke Energy offer a community solar program?

ST. PETERSBURG, Fla. - As part of its commitment to provide clean, reliable and affordable energy, Duke Energy is inviting residential, small/medium business and income-qualified customers in Florida to register to subscribe to the company's new community solar program - Clean Energy Connection.

Does Duke Energy Florida offer a solar rebate?

Duke Energy Florida does not offer a solar rebate or incentive program for its customers. However, customers can take advantage of the 30% federal solar tax credit. The Clean Energy Connection program is available for those who cannot or do not wish to install home solar panels and still benefit from solar energy.

Does Duke Energy Florida have solar metering?

Duke Energy Florida offers net metering, which means that customers can receive credit for excess solar energy at the full retail rate of electricity. Duke Energy Florida does not have any solar-specific rebate or incentive programs, but customers can take advantage of the 30% federal solar tax credit.

Is going solar with Duke Energy Florida a good investment?

Duke Energy Florida's robust net metering program makes going solar a worthwhile investment for homeowners. They can potentially reduce their energy bills to as low as \$30, saving an average of \$210 monthly! However, there's no guarantee that net metering will remain in place.

How much will Duke Energy Invest in New solar power plants?

Duke Energy plans to invest an estimated \$1 billion in new solar power plants across Florida in the next three years. The first plants will go online in 2022 and more will follow through 2024. The investment is part of the Clean Energy Connection Program, which is delivering on what customers want - affordable clean energy options.

Does Duke Energy offer 750 megawatts of solar power?

Duke Energy Florida proposes a new program that, if approved, will offer customers about 750 megawatts (MW) of new, cost-effective solar power. This will provide more options for qualified residential, business and local government customers to voluntarily share in the company's solar energy production.

The 200,000 solar panels at Bay Trail Renewable Energy Center in Crystal River, Florida, will generate enough electricity to power roughly 23,000 homes with renewable energy. They'll also help Duke Energy customers save money. Bay Trail is the first of 10 solar sites that are part of a new Duke Energy program in Florida called Clean Energy Connection.
