

How does energy affect Lebanon's economy?

Energy and electricity demand have weighed heavily on Lebanon's economy. Imported fuel oil accounts for nearly a quarter of the national budget deficit, while electricity demand outpaces power generation capacity. Renewable energy technologies, in contrast, offer the prospect of clean, fully domestically sourced power and heat systems.

Which energy storage technology has the most installed capacity in MENA?

Pumped hydro storage (PHS) has the largest share of installed capacity in MENA at 55%, as compared to a global share of 90%. Pumped hydro storage is one of the oldest energy storage technologies, which explains its dominance in the global ESS market.

Which energy storage solutions will be the leading energy storage solution in MENA?

Electrochemical storage (batteries) will be the leading energy storage solution in MENA in the short to medium terms, led by sodium-sulfur (NaS) and lithium-ion (Li-Ion) batteries.
