The Riga Energy Agency. Municipal institution of the city of Riga. The agency was established as part of the European Union's international program "Intelligent Energy - Europe." It operates independently with the primary responsibilities of managing and coordinating energy supply and enhancing energy efficiency within the Riga municipality.

GIGA Storage realizes large-scale sustainable energy storage. Through smart use of large-scale energy storage, parties can be connected more quickly at lower social costs, using more sustainable energy and allowing fossil fuel power stations to be closed more quickly.

Backed by BlackRock's Diversified Infrastructure business, Jupiter Power has a strategic and established portfolio of utility-scale energy storage projects operating or in construction in the U.S., with a leading pipeline of over 11,000 MW in active development.

The Freeport of Riga will receive 2.5% of the green energy generated, which will support port infrastructure and operations. The plant is expected to produce about 100,000 MWh of green electricity ...

Energy Storage Materials is an international multidisciplinary journal for communicating scientific and technological advances in the field of materials and their devices for advanced energy storage and relevant energy conversion (such as in metal-O₂ battery). It publishes comprehensive research articles including full papers and short communications, as well as topical feature ...

The integration of large-scale renewable energy sources into the power system and the implementation of market mechanisms have changed the operation of combined heat and power (CHP) plants.
