

What is the European photovoltaic solar energy conference & exhibition?

Welcome to the 41st European Photovoltaic Solar Energy Conference and Exhibition. The innovation platform for the global PV solar sector.

What is the EU solar photovoltaic industry alliance?

The EU Solar Photovoltaic Industry Alliance will bring together industrial actors, research institutes, consumer associations, NGOs and other stakeholders with an interest in the solar PV sector.

Is czgse a suitable semiconductor material for solar cell absorber layer?

Very interestingly, the complete replacement of Sn by Ge resulting in $\text{Cu}_2\text{ZnGeSe}_4$ compound (CZGSe) found to be an attractive semiconductor material for solar cell absorber layer owing to its direct band gap in range of 1.29 eV, p-type conductivity, high absorption coefficient and low electrical resistivity [5×10^{-3} Ωcm].

The WCPEC-8 combines the three largest and most prominent international PV conferences: the European PV Solar Energy Conference (39th EU PVSEC), the Photovoltaic Specialists Conference (IEEE PVSC-51) and the International PV Science and Engineering Conference (PVSEC-32). After being in place for more than a quarter of a century, the WCPEC ...

The European Photovoltaic Solar Energy Conferences are dedicated to accelerating the impetus towards sustainable development of global PV markets. The 16th in the series, held in Glasgow UK, brought together more than 1500 delegates from 72 countries, and provided an important and vital forum for information exchange in the field.

As the energy sector accelerates and installed solar PV enters the multi-TW era, the PV research and innovation community is ready to be the key driver and deliver solutions and developments to the energy transition. I am therefore pleased to announce the call for papers for the 41st European Photovoltaic Solar Energy Conference (EU PVSEC ...
