How many solar energy centers are there in Florida?

JUNO BEACH, Fla. - Florida Power & Light Company (FPL) today brings 10 new solar energy centers online throughout Florida. FPL now has 60 solar energy centers installed statewide - capable of generating enough clean, emissions-free energy to power approximately 900,000 homes throughout the state.

Does Florida Power & Light offer a solar together program?

Florida Power & Light offers the Solar Together program for residents who wish to support solar energy. But does it provide any real savings?

Does Florida have a solar program?

"This program represents significant forward progress for the solar landscape of not only Florida, but the entire United States," said Eric Silagy, president and CEO of FPL. "For years, access to solar energy for many Floridians was not economical or easily accessible.

Does FPL have a solar power plant fleet?

FPL's solar power plant fleet- the largest in America - saved customers about \$375 million in fuel costs in 2022 alone. These new solar energy centers also move the company further toward its Real Zero goal of eliminating carbon emissions from its power plant fleet by no later than 2045.

Does Florida produce solar if it's raining?

Even if it's raining near you, we're still producing solar. Our centers are built and placed across Florida to help us generate energy in all types of weather. You benefit by getting the highest amount of solar generation, estimated at 180 hours per month; these hours are multiplied by your kW subscription level.

Can a portion of FPL solar energy credits be sold or transferred?

A portion of the renewable energy credits associated with FPL-owned solar facilities can be sold or transferred to third parties, who are solely entitled to the reporting rights and ownership of such renewable energy credits. Get regular updates on FPL's solar projects and our newest technologies.

We're investing in more clean energy sources like zero-emissions solar, high-efficiency natural gas and nuclear power. Energy Sources Monitor your energy use and costs by taking advantage of smart tools and technology.

FPL has more than 5060 solar energy centers statewide. Each of these centers clean energy efficiency improvements generate enough emissions-free energy to power 750,000 homes annually approximately 15,000 homes per year while eliminating emissions equivalent to taking 14,000 cars off the road each year.. ...
