

Golf cart lithium battery replacement for 2013 club car precedent

Do club car golf carts have lithium batteries?

While most carts from Club Car are still offered with Trojan Lead-Acid batteries, since 2017 many Club Car models are now offered with lithium golf cart batteries. Lithium golf cart batteries have been changing the golf cart industry (for the better) since 2017.

Can you replace lead acid batteries in a golf cart?

Convert now to lithium batteries in your Club Car Precedent, Tempo, or Onward golf cart. Replacing your lead acid batteries with EB Lithium will enhance overall performance and enjoyment of your cart while taking away the headache of lead acid batteries. In addition, leaking, worn out, and heavy batteries can be a thing of the past!

What batteries do I need for a golf cart?

This set includes 2 x 12V Lithium Golf Cart Batteries (all the way up to 8 batteries) made to fit Club Car Precedent models. Works with both 6 x 8V and 4 x 12V Precedent setups. Simply remove your Lead-Acid Batteries and replace with the new Lithium Batteries, attach cables, secure holding bracket and your install is complete.

Which lithium batteries are best for a golf cart?

Allied lithium golf car batteries are the only true "Drop-In-Ready" lithium batteries for golf cart. Allied Battery's versatile lithium battery conversion solution allows users to convert 48V lead-acid to a full lithium golf cart set up. Choose from 2 x 48V 30Ah (30Ah) all the way up to 8 x 48V 30Ah (240Ah) lithium golf batteries for maximum range.

What is a 48 volt battery for a golf cart?

ECO BATTERY 48-Volt Lithium Golf Cart Batteries THRU HOLE Kit - Drop in Ready (Fits ALL Carts!) Club Car Batteries are the set of 36-Volt, 48-Volt or 72-Volt power cells located under the seat of your electric powered Club Car golf cart. Club Car Batteries come in Lead-Acid (traditional, wet cell) and Lithium offerings.

What battery does club car use?

The OEM battery brand of choice that Club Car uses for their non-lithium carts is Trojan Golf Cart Batteries. While most carts from Club Car are still offered with Trojan Lead-Acid batteries, since 2017 many Club Car models are now offered with lithium golf cart batteries.

I have a 2012 Club Car Precedent that had the original batteries. It was setup using 6 8volt batteries. With the help from different threads here I decided I could upgrade my cart to lithium as a DIY. Thought I would share my experience with everyone. Overall I think the project is pretty easy and just took my Dad and I a day to figure it all out.

Golf cart lithium battery replacement for 2013 club car precedent

The most common lead-acid golf cart battery is a group-size GC2/GC8 battery. Therefore, if you choose a lithium battery that is the same size, such as RELION'S InSight Series(TM) 48V lithium golf cart battery, it will make for a much easier installation because it fits directly into your existing battery compartments with no tray modifications ...

Most utilize a 48-volt electric engine but have different amperage and power requirements depending on the use and accessories on the vehicle. For example, Club Car DS, Precedent models, 2in1, 2Plus2, Cargo, Professional, XF (2in1, 2Plus2), and XF Cargo take six BCI Group Size GC8 eight-volt batteries.
