Member Deal ...

To hell with the harbor freight kit. Go on Amazon and find a solar panel you want and a portable power station for the panel to charge. How good the system depends how much you are willing to spend. I have a power station that can do 500 running watts so it can power a radiator style space heater i have but a full charge only lasts about an hour.

I picked up one of the harbor freight 9500 watt inverter generators and first tests indicate it's a winner. One problem I've noticed however is the neutral is bonded to the ground in the generator and I'm not having any luck finding an easy way to separate them.

Harbor Freight buys their top quality tools from the same factories that supply our competitors. We cut out the middleman and pass the savings to you! ... 2000 Watt Continuous/4000 Watt Peak Modified Sine Wave Power Inverter. 2000 Watt Continuous/4000 Watt Peak Modified Sine Wave Power Inverter \$ 149. 99. ... 100 Watt Amorphous Solar Panel Kit ...
