

# Hengtong energy storage

Who is Hengtong energy storage company?

JIANGSU HENGTONG ENERGY STORAGE TECHNOLOGY CO.,LTD. Hengtong Group is a national innovation-oriented enterprise in the fields of Optical Fiber Network, smart Grid, Big Data & Internet of Things (IoT), New Energy & New materials, etc. Hengtong was founded in 1991, headquartered in Wujiang, Suzhou.

What is Hengtong energy storage?

Hengtong Energy storage has two self-developed products: DC charger and AC charger. The products have the advantages of cloud monitoring, cloud operation, cloud management, intelligent operation, intelligent maintenance, dedicated system for large customers, channel diversion, and friendly UI interface.

Who is Jiangsu Hengtong energy storage technology?

Jiangsu Hengtong Energy Storage Technology Co., Ltd. is a wholly-owned subsidiary of Hengtong Group, established in 2019. We provide intelligent energy storage products which are safer, more efficient, less carbon emissions, and more friendly for the customers.

HELIOS C20 liquid-cooled containerized energy storage is an integrated high-energy density system consisting of battery modules, battery management system (BMS), fire protection system (FSS), thermal management system (TMS), and auxiliary distribution system. It has the advantages of cloud monitoring, remote upgrade and operation and maintenance, high ...

In order to further strengthen and enhance the leading position of Alpha ESS Nantong Co., Ltd. (hereinafter referred to as AlphaESS) in the energy storage industry chain, on April 25, 2019, the company and Jiangsu Hengtong High-voltage Cable Co., Ltd. (hereinafter referred to as Hengtong High Pressure) signed a collaboration agreement and jointly ...

SUZHOU, China, June 23, 2020 /PRNewswire/ -- An 8MWh energy storage project contracted by Jiangsu Hengtong Energy Storage Technology Co., Ltd. succeeded in reverse power transmission and was ...

The 48V100Ah intelligent lithium battery, developed and produced by Hengtong Energy Storage Technology Co., Ltd., is primarily utilized in telecommunication base stations as a backup power source to guarantee the stable operation of communication equipment. This product incorporates a DC/DC module, allowing it to be used alongside batteries of ...

SUZHOU, China, June 22, 2020 /PRNewswire/ -- An 8MWh energy storage project contracted by Jiangsu Hengtong Energy Storage Technology Co., Ltd. succeeded in reverse power transmission and was ...

Hengtong attended and exhibited at the All Energy 2023 tradeshow, held in Melbourne at the MCEC on the 25th and 26th of October. It was a great event attended by a range of contractors and suppliers alike. With a full

range of power cable products displayed, Hengtong introduced its solutions and options available to the renewable energy space.

Hengtong signed an energy storage project investment agreement with the government of Sheyang, Yancheng city, on November 18, at the opening ceremony of the 4th China-South Korea Trade and ...

An 8MWh energy storage project contracted by Jiangsu Hengtong Energy Storage Technology succeeded in reverse power transmission and was successfully connected to the grid on the first attempt.

Hengtong Energy's lithium iron phosphate high-voltage DC energy storage system is mainly used in energy storage applications such as new energy generation side, user side, power grid side, and shared energy storage. The system scheme is designed based on a single energy storage unit of 1.86MW/3.72MWh, using an outdoor cabinet structure layout and a DC side maximum ...

An 8MWh energy storage project contracted by Jiangsu Hengtong Energy Storage Technology Co., Ltd. succeeded in reverse power transmission and was successfully connected to the grid at the first attempt. As one of the core technologies of new energy industry revolution, energy storage technology applies devices or physical media to store energy ...

This product is mainly used for fast charging of electric vehicles. It integrates charging, billing, payment, communication, and data collection functions into one system. The user-friendly interface display and operation guidance make it easy for users to complete the charging process quickly and easily.

Hengtong Utility Storage System is mainly used in scenarios with power ratings of 30 kW or more, including but not limited to demand-side management, dynamic expansion, utilization of renewable energy, demand response, trading in the electricity spot market, off-grid or grid-connected applications, peak shaving and valley filling, smoothing output, reducing congestion ...

This product is mainly used for slow and medium-speed charging of electric vehicles. It integrates charging, billing, payment, communication, and data collection functions. It provides a user-friendly interface display and operation guidance. It has the advantages of small footprint and low investment. It is suitable for charging in parking lots for home, commercial, and other purposes, ...

Jiangsu Hengtong Energy Storage Technology Co., Ltd. is a wholly-owned subsidiary of Hengtong Group, established in 2019. The company has always been customer-centric, providing customers with "safer, more efficient and less carbon emission intelligent energy storage products". At the same time, focusing on renewable energy and virtual power plants, the ...

The MOKE48100 intelligent lithium battery integrates a self-designed BMS and long-life LFP battery, with high charging and discharging efficiency. It also supports intelligent anti-theft solutions (optional), CAN/SNMP V2/SNMP V3 (optional). It has obtained ISO 9001, ISO 14001, IEC 62619, and IEC 62620

certifications. It is widely used in various telecommunications and ...

Photovoltaic Energy Storage Integrated Inverter is specifically designed for residential and small-scale commercial applications, It features a compact size, high efficiency, multiple protection functions, safety, reliability, Stable intelligence, and a high protection rating of up to IP65, Making it suitable for various usage ...

Jiangsu Hengtong Energy Storage Technology Co., Ltd. is a wholly-owned subsidiary of Hengtong Group, established in 2019. The company has always been customer-centric, providing customers with "safer, more efficient and less carbon emission intelligent energy storage products". At the same time, focusing on renewable energy and virtual power plants, ...

An 8MWh energy storage project contracted by Jiangsu Hengtong Energy Storage Technology Co., Ltd. succeeded in reverse power transmission and was successfully connected to the grid at the first attempt. As one of the core technologies of new energy industry revolution, energy storage technology applies devices or physical media to store ...

The 100kW/233kWh commercial and industrial liquid-cooled energy storage system adopts an "All in One" design concept, integrating long-life cells, battery management system (BMS), high-performance bi-directional inverter (PCS), energy management unit (EMU), liquid cooling system, fire protection system, and distribution system into a single cabinet, forming a standardized, ...

Hengtong Residential Energy Storage System is a new hybrid energy storage system based on lithium iron phosphate batteries and equipped with a customized battery management system (BMS). The battery cells have a cycle life of up to 6,000 cycles, so you don't have to worry about power outages and can enjoy green energy for many years.

Hengtong Energy Storage Solutions is dedicated to the R& D, manufacturing and engineering of energy storage systems in both commercial and residential, which covers energy planning and design, engineering investment and construction, multi-energy operation service and financial service. At this conference, Hengtong highlighted the new products ...
