How do you charge a Swiss Tech portable charger?

Designed for rugged adventures, this weatherproof portable charger features dual USB-A, USB-C, and micro USB ports. Charge your devices wirelessly or via cables. Need light? Activate the built-in LED flashlight for nighttime navigation. Whether you're camping, hiking, or simply on the move, Swiss Tech has you covered.

What should I consider when using a solar power bank?

The first thing to consider when using a solar power bank is what devices you want to charge. Most solar power banks come with USB ports, which means you can charge any mobile device that uses a USB charger. Some solar power banks also come with built-in cables, which can be helpful if you don't want to carry around extra cables.

Why is my solar power bank not charging?

Wrong or broken charger/power cable If you're trying to charge your solar power bank using a USB charger and it isn't charging, the issue might not be your power bank. It could instead be the charger or the cable. Make sure you're using the correct charger, one that delivers the proper voltage and current (as required by your solar power bank).
