

What is International Journal of electrical power and energy systems?

International Journal of Electrical Power and Energy Systems is a journal covering the technologies/fields/categories related to Electrical and Electronic Engineering (Q1); Energy Engineering and Power Technology (Q1). It is published by Elsevier Ltd.. The overall rank of International Journal of Electrical Power and Energy Systems is 2065 .

What is the impact index of the International Journal of power and energy systems?

The latest impact index of the International Journal of Power and Energy Systems is 0.30. It's evaluated in the year 2022. The highest and the lowest impact index or impact score of this journal are 0.56 (2021) and 0.20 (2015), respectively, in the last 9 years. Moreover, its average IS is 0.36 in the previous 9 years.

What is the ISSN of International Journal of power and energy systems?

The ISSN of International Journal of Power and Energy Systems is 10783466. ISSN stands for International Standard Serial Number. An ISSN is a unique code of 8 digits. It is used for the recognition of journals, newspapers, periodicals, and magazines in all kind of forms, be it print-media or electronic.

What is the h-index of International Journal of electrical power and energy systems?

International Journal of Electrical Power and Energy Systems has an h-index of 155. It means 155 articles of this journal have more than 155 number of citations. The h-index is a way of measuring the productivity and citation impact of the publications.

When will International Journal of electrical power and energy systems become open access?

From January 1, 2024, International Journal of Electrical Power and Energy Systems will become a full gold open access journal freely available for everyone to access and read. All articles submitted after August 31, 2023, are subject to an article publishing charge (APC) after peer review and acceptance.

The latest impact factor of International Journal of Power and Energy Systems and all the other Web of Science journals is released on 20th June 2024 by Clarivate. Through this web page, researchers can check the impact factor, total citation, journal quartile, and journal aim & scope.

Posted: 2024-06-20 : Aim of IJRER : The International Journal of Renewable Energy Research (IJRER) seeks to promote and disseminate knowledge of the various topics and technologies of renewable (green) energy resources. The journal aims to present to the international community important results of work in the fields of renewable energy research, development, application, ...

The Impact IF 2023 of International Transactions on Electrical Energy Systems is 2.90, which is computed in 2024 as per its definition. International Transactions on Electrical Energy Systems IF is increased by a factor

of 0.07 and approximate percentage change is 2.47% when compared to preceding year 2022, which shows a rising trend. The impact IF, also ...

Know all about International Journal of Power and Energy Systems - Impact factor, Acceptance rate, Scite Analysis, H-index, SNIP Score, ISSN, Citescore, SCImago Journal Ranking (SJR), ...

Scope: The scope of the International Journal of Electrical Power & Energy Systems (JEPE) is focused on electrical power generation, transmission, distribution and utilization, from the ...

This journal began publishing in open access in 2015. This journal uses a CC BY-NC-ND license. -> Look up their open access statement and their license terms. The author does not retain unrestricted copyrights and publishing rights. Permanent article identifier: A peer-reviewed, open access journal in power energy, power and energy & sci indexed.

International Transactions on Electrical Energy Systems is an open access journal publishing original research results on key advances in the generation, ... CNN integrated with attention block is utilized to extract effective features of the load impact factors. Then the load of the next hour is forecasted by the LSTM combined with BiLSTM layers.

The journal covers theoretical developments in electrical power and energy systems and their applications. The coverage embraces: generation and network planning; reliability; long and short term operation; expert systems; neural networks; object oriented systems; system control centres; database and information systems; stock and parameter estimation; system security and ...

Energy Systems aims for mathematical programming, control, and economic approaches towards energy systems related topics. The topics covered include power systems optimization, unit commitment, power generation, power trading, electricity risk management, competition in electricity markets, bidding strategies as well as market power issues.

Scope: The scope of the International Journal of Electrical Power & Energy Systems (JEPE) is focused on electrical power generation, transmission, distribution and utilization, from the viewpoints of individual power system elements and their integration, interaction and technological advancement. The scope covers modelling of power system elements, their design, analysis ...

Get access to International Journal of Electrical Power and Energy Systems details, impact factor, Journal Ranking, H-Index, ISSN, Citescore, Scimago Journal Rank (SJR). Check top authors, submission guidelines, Acceptance Rate, Review Speed, Scope, Publication Fees, Submission Guidelines at one place. Improve your chances of getting published in International Journal of ...

» International Journal of Power and Energy Systems. Abbreviation: INT J POWER ENERGY S ISSN:

... Journal Impact Factor (JIF): 0.3 5-year Impact Factor: ... » International Journal of Power and Energy Systems. Abbreviation: INT J POWER ...

During the most recent 2022 edition, 17.04% of publications had an unrecognized affiliation. Out of the publications with recognized affiliations, 27.13% were posted by at least one author from the top 10 institutions publishing in the journal. Another 11.63% included authors affiliated with research institutions from the top 11-20 affiliations. . Institutions from the 21-50 range included ...

The impact score (IS) of CSEE Journal of Power and Energy Systems for the year 2022 is 7.47. This is an increase by a factor of 4.87 and an approximate percentage change of 187.31% when compared to the preceding year 2021.

The ISSN (Online) of International Journal of Electrical Power and Energy Systems is - . An ISSN is an 8-digit code used to identify newspapers, journals, magazines and periodicals of all kinds and on all media-print and electronic. International Journal of Electrical Power and Energy Systems Key Factor Analysis

The Impact IF 2023 of International Journal of Power Electronics and Drive Systems is 1.93, which is computed in 2024 as per its definition. International Journal of Power Electronics and Drive Systems IF is increased by a factor of 0.07 and approximate percentage change is 3.76% when compared to preceding year 2022, which shows a rising trend. The ...

Aim and Scope. The International Journal Of Electrical Power And Energy Systems is a research journal that publishes research related to Energy; Engineering. This journal is published by the Elsevier Ltd.. The ISSN of this journal is 1420615. Based on the Scopus data, the SCImago Journal Rank (SJR) of international journal of electrical power and energy systems is 1.533.

Energy Systems aims for mathematical programming, control, and economic approaches towards energy systems related topics. The topics covered include power systems optimization, unit commitment, power generation, power ...

International Transactions on Electrical Energy Systems Impact Factor, IF, number of article, detailed information and journal factor. ISSN: 2050-7038. International Transactions on Electrical Energy Systems Impact Factor IF 2023|2022|2021 - BioxBio

The Impact IF 2023 of International Journal of Emerging Electric Power Systems is 1.53, which is computed in 2024 as per its definition. International Journal of Emerging Electric Power Systems IF is decreased by a factor of 0.44 and approximate percentage change is -22.34% when compared to preceding year 2022, which shows a falling trend. The impact IF, ...

An international journal devoted to research and new applications in generation, transmission, distribution and

utilization of electric powerElectric Power Systems Research is an international medium for the publication of original papers concerned with the generation, transmission, distribution and utilization of electrical energy.

The International Journal of Electrical Power and Energy Systems has an SJR (SCImago Journal Rank) of 1.711, according to the latest data. It is computed in the year 2024. ...

International Journal of Energy Research is dedicated to providing a multidisciplinary, unique platform for researchers, scientists, engineers, technology developers, planners, and policy makers to present research results and findings in a compelling manner on novel energy systems and applications.
