The Francis Crick Institute is a long-established laboratory researching biomedicine and related topics. I enjoyed the website's tasteful appearance and use of high-quality images, but what really drew me in was the large selection of page links that covered a wide variety of the lab's research topics and study opportunities, along with on-site exhibitions ...

Used in the lab or in the field, Sitalab's accuracy, speed and low cost per sample allows customers to delineate contaminated sites much more thoroughly, while reducing the number of samples or the need to send samples off-site for laboratory confirmation. Savings in disposal costs, treatment, time and labor are also achieved.

Laboratory site
