Battery insulated protective cover total for 20pcs, Made from insulating and protecting flexible rubber
material, different size, 10pcs 11 x 2.5mm and 10pcs for 20x12mm size. You can use it in different battery
covers.

CraneGlas® is used in a variety of applications including: chemical trace lines, thermal insulating
gaskets, copperclad laminates for printed wiring boards, battery separators and photovoltaic panels. Fiberglass
separator materials for lithium thionyl chloride cells.

Besides power transfer, terminals serve as connection points. A lithium battery, like a 200Ah LiFePO4 lithium
battery, connects to the device through its terminals. Positive and negative terminals link to their counterparts
in the device. ... o Terminal Covers . Acting as safety shields, terminal covers help protect against short
circuits in ...
