SK12V100H lithium iron phosphate battery is design for cold temperature performance built-in with 60Watts heater pad inside. ... In stock now, ready to ship! Latest V8 version Bluetooth BMS, top battery cells balance function. SK12V100H designed for cold weather using! Can safely charge at temperatures down to -20°C (-4°F) by a standard ...

There is less capacity for power storage in the battery when the temperatures are cold. You should never charge a lithium battery when the temperatures are below 32°F as it can cause the lithium ions to bind into lithium metal and short the battery internally. Lithium-ion batteries heat up when you are charging them at very high rates.

Benefits of Our Lithium Battery Heaters. Our RV lithium battery heaters are long-lasting, durable, and safe. They've been tested both by our team and independently. Even the Coast Guards and Military use our Xtreme Heaters in their boats with peace ...
