Can Ion power cells help Subnautica?

Subnautica takes players into the deep blue sea with a new take with the survival simulator sub-genre. When it comes to accumulating resources, some items are more essential than others. In this case, ion power cells can bring much-needed assistance to Subnautica.

How do power cells work in Subnautica?

Even though there's a lot of things players can do in Subnautica, these cells are used to charge up vehicles so players can drive them around. Before power cells can be implemented, players will first need to make the battery. After the battery is crafted, it's a natural progression to it becoming a power cell and then an ion power cell.

Where can I find Ion power cells in Subnautica?

Players will be tasked with going out into the world of Subnautica and finding "Alien Data Terminals"; in order to find the appropriate blueprint to build an ion power cell. In this case, the blueprint for the ion power cells is found in the orange alien terminal inside the "Alien Thermal Plant";
