When selecting a solar installation company in Los Angeles, there are a number of specific factors to consider. With 1,525 solar companies in the area and the median Los Angeles household size as 1,771 square feet, you should get a basic idea of how many options are at your disposal and what size solar system you'll need for your home.

The average cost to install solar panels is around \$26,600, and most homeowners pay between \$4,500 and \$53,000. Keep in mind that these prices don't consider the federal investment tax credit (ITC), which can effectively reduce those costs by up to 30%.
