

Maximum residential energy credit for solar panels

What is the Federal residential solar energy credit?

The federal residential solar energy credit is a tax credit that can be claimed on federal income taxes for a percentage of the cost of a solar PV system paid for by the taxpayer. (Other types of renewable energy are also eligible for similar credits but are beyond the scope of this guidance.)

Do solar panels qualify for a tax credit?

The installation of the system must be complete during the tax year. Solar PV systems installed in 2020 and 2021 are eligible for a 26% tax credit. In August 2022, Congress passed an extension of the ITC, raising it to 30% for the installation of which was between 2022-2032.

What is a federal solar tax credit?

For example, claiming a \$1,000 federal tax credit reduces your federal income taxes due by \$1,000. The federal tax credit is sometimes referred to as an Investment Tax Credit, or ITC, though is different from the ITC offered to businesses that own solar systems. What is the federal solar tax credit?

Who is eligible for a solar PV tax credit?

A tenant-stockholder at a cooperative housing corporation and members of condominiums are still eligible for the tax credit if they contribute to the costs of an eligible solar PV system. In this case, the amount you spend contributing to the cost of the solar PV system would be the amount you would use to calculate your tax credit.

How much solar tax credit can I claim?

While there is no maximum amount you can claim, the tax credit is nonrefundable, which means it can reduce your taxes to zero but won't generate a tax refund. Let's say you owe \$7,000 in taxes this year. If you qualify for a solar tax credit of \$8,000, you can only use \$7,000 of that credit on this year's return.

Can I claim a solar tax credit on a rental unit?

Yes. Solar PV systems do not necessarily have to be installed on your primary residence for you to claim the tax credit.¹⁴ However, the residential federal solar tax credit cannot be claimed when you put a solar PV system on a rental unit you own, though it may be eligible for the business ITC under IRC Section 48.¹⁵
