Sport Series Lithium Batteries. Do unto others, as you would have them do to you. The Golden Rule. Here at Millertech, we value this rule and ...

I ordered the 36v 15 AMP On-board lithium charger (3615M). I'm using this charger for my 36v golf cart. Which has three 12.8v 100ah batteries wired in series. It is mounted inside the golf cart battery compartment. The charger has worked great, looks nicely made, and feels to be heavy duty compared to the other comparable chargers on the market.

Applications For This Battery The ultimate Trolling motor battery. 70% less weight than AGM, 5000 cycles vs 800 for AGM. Use one for 5+ hours of heavy trolling use. Use 2 for 10+ hours of heavy trolling motor use. Remove those 3 heavy lead acid lunkers today and replace them with the best battery system that the industry has to offer! Bluetooth technology built directly inside ...

They are built with Grade A lithium iron phosphate (LiFePO4 or LFP) cells and are guaranteed for 10 years with a full repair/replace warranty. They feature Bluetooth battery monitoring with a smart phone app to keep track of

When it comes to marine batteries or trolling motor batteries, you have your typical 12-volt lead acid batteries, AGM (or Gel Mat) batteries and you have lithium batteries (LiFe PO4). These can be used to start an outboard, power lights and pumps, power multiple electronics and fish finders and run a 12, 24 or 36-volt trolling motor.

Miller lithium batteries

Grade A lithium batteries are a must for someone who has a critical power need every day. Made with the best available Grade A lithium cells, these batteries can be discharged fully every single day and still last over 7 years! More likely, you won't be that harsh on them and they can last 15-20 years for the average user. But the full power is there when you need it!
