

Miller tech lithium battery

What is a millertech lithium battery?

MillerTech Lithium Batteries recharge up to 5x faster than a traditional battery and last up to 4x longer! Bluetooth activated to connect directly to our MillerTech App. The MillerTech App gives you in depth, real-time data, taking the guessing game completely away. Power with Confidence!

Are millertech lithium batteries safe?

Yes, Millertech lithium batteries are safe. Each and every Millertech battery is built using only the highest quality materials that are available. The lithium cells used in our batteries are UL, CE, RoHS, and RU approved, meaning they have successfully passed all safety testing.

How long do millertech lithium batteries last?

Millertech Sport Series Lithium Batteries can last up to 10X longer than AGM or lead-acid batteries. Never be stranded with a dead battery again! Each battery is in a custom molded reclosable case that is sealed with a thick rubber gasket along the lid connection point.

Does millertech buy a lithium battery from China?

This is why Millertech does not buy an (off the shelf) lithium battery from just any Chinese supplier. When creating our Millertech brand in 2015, we soon realized how easy it is to buy a lithium battery from China.

Can millertech batteries be used in starting applications?

No, Millertech lithium batteries are not designed to be used in starting applications. Our batteries are designed to be used as a deep cycle lead-acid replacement. In certain small starting applications, we have successfully installed our 65AH or larger batteries with good results. For example, small gas engines and boat motors 50 HP or smaller.

Is millertech a good battery brand?

In conclusion, we still have no way of truly comparing Millertech with any other brand, but rest assured when buying a Millertech battery, you are buying the best product we can possibly produce, with a 5 year free replacement warranty to back it up! Top 3 Reasons your MillerTech Battery could fail.
